

The **Bureau of HIV and STI Programs (BHSP)** is part of the MDHHS Public Health Administration.

BHSP focuses its efforts on:

- the prevention, care, and treatment of HIV and STIs.
- Administering the Ryan White HIV/AIDS Program within Michigan.
- Providing support and consultation to local health departments and other healthcare professionals.
- Collecting, analyzing, and sharing data on HIV and STIs.
- Implementing evidence-based programs and strategies to control HIV and STIs.
- Engaging in special studies related to the control of HIV and STIs; and
- Acting as a liaison with the Centers for Disease Prevention and Control (CDC) and other federal partners on HIV and STI related issues.

BHSP consists of two divisions:

- Division of HIV/STI Programs and Field Services
  - HIV Care Section
  - HIV/STI Prevention Section
  - HIV/STI Field Services Section
- Division of Data and Operations
  - Operations Section
  - Surveillance and Data Management Section
  - Quality, Evaluation and Epidemiology Section
